Welcome to the Light Rail Transit webinar!

Please note...

- The Presenters will **mute** all participants once we begin. If you have a question, use the Dashboard on the right to “Raise your Hand” and “type in your question.”
- Download Presentation and other materials from www.ourtransitfuture.com/DOLRT-affected-properties
- Windows-Based participants: If you are not seeing the whole slide, go to View, then select “Fit on WhiteBoard”.
- Web-Based participants, use Ctrl and +/- keys together to zoom in or zoom out (enlarge or reduce internet image size).
- Verbal and written statements in this session will inform the project staff, but will not be included in the Administrative Record. *Please put your comments in writing (use the comment form or send to info@ourtransitfuture.com)*
- This session will be recorded.

Travel intensity (trips/acre)

Goals of the Proposed Project

- **Enhance Mobility**
 - 56,000 residents and 81,000 jobs coming to Durham-Orange corridor = 255,000 trips by 2035
- **Expand Transit Options**
 - Need more options to connect to Durham and Chapel Hill
- **Serve populations likely to use transit**
 - Low-income households; University employees; University students; Employees and patients of medical centers and hospitals
- **Foster compact development**
 - Durham and Chapel Hill development plans call for mixed-use development and higher density within the D-O Corridor

Durham-Orange LRT Project

- 17 stations along 17 miles of exclusive tracks primarily at-grade with elevated sections at key locations
- Between UNC Hospitals and Alston Ave in East Durham
- End-to-end travel time 39 minutes
- Service:
 - 7 days per week, 18 hours per day
 - 10-min during peak hours
 - 20-min off-peak and on weekends
- Average weekday ridership: 23,000 boardings by 2035

D-O LRT Goes Where People Want To Go

UNC
HEALTH CARE

19,300 employees

What is Light Rail Transit (LRT)?

Side-Running LRT Station

Elevated LRT - Access & Vertical Circulation

Pedestrian Overpass

Select Features (from left, clockwise):
Ticketing, Train Interior, Overhead Catenary, Security Camera, Platform

Park-and-Ride Station

Transit Oriented Development

North Carolina's first Light Rail Transit Service has been a catalyst for almost \$1.5 Billion of new or planned development along Charlotte's South Corridor, a formerly under utilized rail corridor. Within less than three years of operation, daily transit ridership exceeded their 2020 forecast levels and now averages 15,000 trips per day.

The Federal Process

- FTA advanced D-O LRT project into “Project Development”
 - 2 year environmental study
 - Next phase is Engineering
 - Final phase is Final Design/ construction

What is an Environmental Impact Statement (EIS)?

An EIS is a requirement of the National Environmental Policy Act (NEPA) for projects seeking federal action that may result in a significant effect on the quality of the human or natural environments. **An EIS is a tool for decision-making. Environmental topics typically covered include:**

- Land Use Plans, Zoning and Economic Development
- Transportation
- Neighborhoods and Communities
- Air Quality
- Visual and Aesthetic Impacts
- Noise and Vibration
- Wetlands
- Biological Resources and Endangered Species
- Floodplains and Flood
- Historic and Archaeological Resources and Parklands
- Parks and Recreational Sites
- Contamination/Hazardous Waste
- Energy
- Soils
- Construction Impacts
- Impacts on Railroad Operations
- Secondary and Cumulative Impacts
- Climate Change Adaptation Planning

Alternatives to be Analyzed in EIS

- What happens if you do nothing?
- What happens if we build a light rail line?

Legend

Proposed stations with alternatives

Durham-Orange Light Rail Project

May 2014

New Hope Creek – Locally Preferred Alternative (LPA)

- **New Hope Creek Locally Preferred Alternative** continues east from the Patterson Place Station → crosses New Hope Creek, the surrounding wooded area, and Garrett Road approximately one-third of a mile south of US 15/501 → passes between two apartment complexes → enters University Drive at intersection with Ivy Creek Boulevard. Proposed station would be in the median of University Drive at Martin Luther King Jr. Parkway.

New Hope Creek – Option 1

- **New Hope Creek Option 1** leaves the Patterson Place Station utilizing the right-of-way for US 15-501 → passes over New Hope Creek and Garrett Road → returns to the ground for a short distance between Garret Road and the Martin Luther King Jr. Parkway interchange → goes up and over Martin Luther King Jr. Parkway with a station in the vicinity of Martin Luther King Jr. Parkway and University Drive. The alignment would be in close proximity several apartment complexes and businesses.

New Hope Creek – Option 2

- **New Hope Creek Option 2** follows Option 1 until Garrett Road → turns east between several commercial buildings → continues across Sandy Creek and the surrounding wooded area → joins the New Hope Creek Locally Preferred Alternative as it approaches the University Drive.

D-O LRT Project Milestones

- Durham County Passed Referendum Nov 2011
- Durham-Orange LRT Project Adopted Feb 2012
- FTA initiated Environmental Process (Scoping) April 2012
- Orange County Passed Referendum Nov 2012
- Public Reviewed Draft EIS Alternatives Nov 12-14, 2013
- Project Development Phase began Feb 25, 2014

Federal Transit Administration (FTA) New Starts Process

We are here

2014 - 2016

2016 - 2019

2019 - 2026

- Complete environmental review process including developing and reviewing alternatives, selecting locally preferred alternative (LPA), and adopting it into the fiscally constrained long range transportation plan

- Gain commitments of all non-New Starts funding
- Complete sufficient engineering and design

- Construction

Legend

= FTA approval

= FTA evaluation, rating, and approval

Next Steps: Late Spring 2015 – Draft Environmental Impact Statement (DEIS)

- In addition to impacts to the human and natural environments, the DEIS will disclose potential partial and full property displacements, relocations, and acquisitions, as well as proposed temporary and permanent easements
- The DEIS will be circulated for public review
- **Public review and comment period will be open for 45 days** from the publication of the Notice of Availability in the *Federal Register*
- **A public hearing will be held in the Durham-Orange corridor during the 45 day period**

Next Steps: Spring/Summer 2016 – After Record of Decision (ROD)

- After the ROD is issued by the FTA, property evaluations, appraisals, negotiations, and relocations or acquisitions can begin
- Federal laws and regulations establish this process:
 - *Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970* (42 United States Code Chapter 61)
 - Implementing regulations of the Uniform Act (49 Code of Federal Regulations Part 24)
