TRANSPORTATION FAIR @ HABITAT

By Amber Warren

GoTriangle provided information about the sustainable transit programs and services, while others provided Bike tune ups, bike safety, helmet checks and health resources. GoTriangle was also able to provide a bus for the participants to walk on and learn a few bus riding tips. Lastly there was a scavenger hunt that allowed attendees, upon completion, to enter a drawing to win a Visa gift card.

GoTriangle operator, Arlo Smith, provided quick lessons on boarding and departing the bus, as well as some bus etiquette.

GET REWARDED!

Get rewarded for your Go! With GoPerks, your smart commute by bus, bike, walk, carpool, or van can get you some cool stuff. It's pretty simple. Go smart, track your trip, get rewarded.

EMERGENCY RIDE HOME

You have a ride home if an emergency ever strikes.

It's the highest priority for the Emergency Ride Home (ERH) program to get our smart commuters home in case of an emergency. Many organizations are encouraging teleworking, but there's a significant number of transit riders, carpoolers, vanpoolers and active commuters who need to commute to work daily. For those commuters, should they have an emergency like sudden personal or family illness, ERH provides a trip home from work. Our taxi provider is taking precautions including disinfecting vehicles after each trip.
