

Mohamed Elsharkawy

PARTS & INVENTORY
COORDINATOR

13
YEARS

Describe your role and your responsibilities in 1-2 sentences.

Request/receive parts. Parts warranty. End of the month reports for facility departments [fuel consumption, PM, fuel purchase, our fleet monthly miles, cost per mile, Road calls, parts purchases]. Mechanics tool allowance. PO requisition.

What does a typical day look like for you?

Work smoothly, do the best you can, do the extra s tep, be optimistic.

What skills or qualities help you succeed in your position?

Accounting, negotiation, multi-tasking, strong communication with vendors.

What is the most challenging part of your role?

Always new issues with our fleet that require to think out of the box to fix it.

What is something surprising about your job that most people wouldn't know?

A large part of my job is investigation. I have to investigate all outside services invoices to make sure we got the service they charged us for.

Share a memorable story or moment from your time at GoTriangle.

Driving the bus at the state fair ground season, and I got stuck in traffic for 4 hours on my first trip, when I was supposed to do three trips within three hours.

Favorite part of the Triangle to explore using public transit?

Research Triangle Park

What advice would you give someone interested in a career in transit?

I believe in our organization and consider it home. It's a strong organization offering a lot of opportunities to grow with an amazing diverse atmosphere.
