

CARPOOL CHECKLIST

Considering a carpool? First things first: head over to STRNC.org or search "STRNC" in the app store, enter your commute trip and find others with matching trips. Here are some guidelines to get started:

Find the carpool route and designated pickup points.

Determine arrival and departure times.

Are you rotating driving responsibilities or is there a dedicated driver?

How many days of the week are you carpooling?

If you're the driver, is the vehicle up to date on services and inspections?

HOW MUCH WILL THE NON-DRIVER PAY TO COVER EXPENSES OF THE DRIVER? CONSIDER USING THE **COMMUTE COST CALCULATOR** TO SEE YOUR SAVINGS!

If talking is allowed, what topics are off-limits?

Radio: On or off? Volume? What channels are okay?

Smoking or non-smoking.

Eating in the car?

Temperature controls.

Cell phone use.

Seatbelt use.

How do you all contact one another?

How long are you willing to wait if some is running late? 2-5 minutes? More?

What happens if the driver is sick or has car troubles?

Be sure to register for Emergency Ride Home!

Are detours allowed? (Such as a morning coffee run.)
