

SCENARIO UNC HOSPITALS

WHY THIS STATION?
As the main station serving UNC Hospitals and much of the University of North Carolina-Chapel Hill campus, it has the highest projected light-rail ridership. Connectivity is the primary focus.

AFFORDABLE HOUSING OPPORTUNITY
Opportunities for pockets of neighborhood-scale residential infill could help address much-needed, easily accessible housing for staff and faculty near campus.

BONUS BULLET
The station will serve a mix of employees, students and visitors to the hospital or university. It also serves existing employment and nearby residents by expanding transit options and access. Many Chapel Hill Transit bus routes will connect with the light rail at the UNC Hospitals station.
